

Geotextile Fabrics

Qualified Product List **Specification – Requirements**

ODOT Construction and Materials Specifications 712.09

Requirements for inclusion on the Qualified Product List

The Department will determine acceptance of Type A, B, C, and D fabric according to data obtained in the most current NTPEP report – Laboratory Results of Evaluations on Geotextiles and Geo-synthetics.

Submit to the Office of Materials Management the following information:

1. Manufacturer's letter certifying the Geotextile Fabrics supplied to the project will meet or exceed Departmental specifications
2. If no MARV value is published in the NTPEP report provide certified test data showing the MARV values for the product
3. Provide typical markings identifying the manufacturer
4. 4 x 4 foot sample for each type
5. Agreement to immediately notify the Department on any changes in production, materials, or dimensions before shipment
6. Provide the Department a contact name, number and e-mail address
7. Provide re-certification documentation by January 1 of each year

Acceptance by the Department

The Office of Materials Management will review a manufacturer's submittal and NTPEP data for compliance with specification requirements.

Accepted products will be listed on the Department's qualified product list web page and will be loaded into the Department's Construction Management System for acceptance in the field through the QPL screen.

Field Documentation requirements

1. Products on the QPL will be accepted if they can be identified by the field to a manufacturer listed on the Department's Qualified Products List.
2. Material has been stored and handled per manufacturer's recommendations
